Token Distribution Pattern

Total no. of Pre mined BTR is 550,000,000. This is locked limited supply. We have planned to distribute Bitether in very unique pattern as follow:

Token Distribution Pattern

ICO (103,125,000 BTR) Distribution

1 Cycle Distribution:

No. of BTR	Duration
1,250	10 Min.
7,500	60 Min. (1 Hour)
180,000	24 Hours (1 Day)
5,400,000	30 Days (1 Month)
48,600,000	9 Months (1 Cycle)

- After completing Every Cycle, the issuance of BTR will be halved..
- This Issuance will be finished in 34 cycles i.e. 25 years and 6 Months.

ICO Phases

We have kept the distribution of BTR in three unique phases as follow:

- ✓ **Phase – I (Cold Constant Phase):** In the first phase of ICO, the rate of BTR will be \$0.01 constant for the period of 30 days from ICO Opening Date.
- ✓ **Phase – II (Hot Growing Phase):** In the second phase of ICO, the rate of BTR will increase gradually as per the demand increases for the period of next 100 days till the listing of BTR on exchange.
- ✓ **Phase – III (Variable Trading Phase):** In the third phase of ICO, the BTR token will be listed in private or International Exchange, So, the rate of BTR will depend on the trading scenario.
