BITCORN CROPS
A CORNMUNITY OF HUMBLE FARMERS

Bitcorns is an idle game of accumulation, similar to AdVenture Capitalist, where the only objective is to accumulate the most BITCORN. Deceptively simple, accumulating BITCORN takes an amount of CROPS most people do not possess.

HOW IT WORKS

A Bitcoin address that owns the Counterparty token CROPS becomes an editable farm on **Bitcorns.com**

Bitcorn Crops is powered by the Counterparty Protocol which means it's built on top of the oldest, most trustworthy blockchain, Bitcoin.

Rest Assured your Farm is Secure

To customize your farm you will need to sign a message from your bitcoin address to prove cryptographic ownership of that farm. No sign up or account is needed to farm!
